

ABSTRACT

Sabungan Sibarani, The Effort of Medan Mayor In Actualize Good or Clean Governance (Study About Governance Implementation Practice In Medan City to Restrain and Take Action Against Performer Doing an Injustice of Corruption. This dissertation was supervised by Prof. Dr. Hj. Waty Suwarty Haryono, SH., MH., and Dr. Djafar Al Bram, SH., MH., as the main advisor.

The problem studied in this dissertation: How are the Mayor of Medan in realizing good governance at the Local Government Medan? and the role of the Medan Mayor to prevent and take action against perpetrators of corruption in the city government of Medan?

The results showed that the efforts of Mayor of Medan in creating a clean government in Medan City Government is to promote the rules and policies that have made the central government and implemented by the city government of Medan conditions include (a) the fact Integrity, (b) e-purchasing, (c) e-government, (d) reward (*reward*) and punishment (*punishment*), (e) unqualified (WTP) and the Procurement Services Unit (ULP).

The role of the Mayor of Medan to prevent and take action against perpetrators of corruption in the city government of Medan are (a) facing the principle of transparency in carrying out the functions and duties of office to prevent corrupt practices, (b) make an early warning program of prevention of corruption, (c) and nine steps to eradicate corruption.

Through this dissertation, the authors suggest that support wider community both from the community organizations, businesses, and students are needed to be able to continue the policy of the local government, especially local government of Medan in dealing with corruption. After the efforts of the local government in improving public services, the public is expected to implement the anti-corruption behavior against state officials. With these efforts will be spared from corruption efforts on state officials.
